

AFI-USB HF Noise Blocker & Reclocker

USB to OPT Isolator >>>

3-way optical cable

>>> Reclocker Unit

Blocks HF noise from computer CPU into the PowerBox / any DAC

- Most cost-effective measure to improve digital source quality
- **Signal and sample rate are transmitted on three independent optical pathways between isolator and reclocker unit.**
- **Complete signal re-clocking, not just PLL architecture**
- **Avoids typical jitter of optical TOSLINK connections**
- IN: USB cable from your computer
- OUT: High quality Neutrik EtherCON© shielded RJ45 connection
- Shielded cable to RJ45 input @ PowerBox/House (€42,02).
Adaptors for spdif RCA or AES-XLR inputs available (€42,02)
- Signal routing: Computer ► AFI-USB ► PowerBox or any DAC
- Available worldwide (€1049) from www.magicLX521.com
